

Reference list of the architectural office Kalka time period 1979-2007

Departments Architecture + Analysis of Structures

All architect performances and performances of analysis of structure are put on in this list. One produced for the general planner performances, objects one lists also in the appropriate other departments. The first part of the project number is the year of the contract.

Abbreviations:

- Arch = architect performances (bracket details are produced performance phases, if the whole performance picture of the HOAI was not demanded)
- HT = engineer performances technical building equipment (house technology)
- Ing or Statik = analysis of structures,
- BK = building costs
- TDM = thousand DM (=500€)
- Außenanl = architect performances for external features
- Innen = performances interior design
- NF = floor space
