

Reference list of the Kalka & Partner GmbH - time period 1979-2007

Departments engineer performances technical building equipment

Here are all performances listed, which are done at first in the Architecture Office Norbert Kalka and then starting 1984 from the Kalka & Juhnke GmbH, later from 1991

All architect performances and performances of analysis of structure are put on in this list. One produced for the general planner performances, objects one lists also in the appropriate other departments. The first part of the project number is the year of the contract.

Abbreviations:

- Arch = architect performances (bracket details are produced performance phases, if the whole performance picture of the HOAI was not demanded)
- HT = engineer performances technical building equipment (house technology)
- Ing or Statik = analysis of structures,
- BK = building costs
- TDM = thousand DM (=500€)
- Außenanl = architect performances for external features
- Innen = performances interior design
- NF = floor space
